Sing Along & Read Along with Dr. Jean

Research has shown that the rhythm, phrasing, and dynamics of music enhance early language development. Follow the words in these playful and engaging stories while singing along with the music to help connect oral and written language and improve reading skills and vocabulary development. Children will experience the joy of music through song and story with *Sing Along & Read Along with Dr. Jean*.

Music and song also affect children's development in the following ways:

- Increase memory/retention
- Aid sound discrimination
- Improve listening skills
- Improve rhythmic skills
