Signs of Fall Emergent Readers & PowerPoint Bundle

Leaves change color in the fall. They change to

red

orange

yellow

brown.

The next 3 pages show
sample slides from the
Signs of the Fall Season
PowerPoint presentation.

Leaves change color in the fall. They change to

red

orange

yellow

brown.

Why do leaves change color in the fall?

Leaves use the sunlight to make green chlorophyll which is food for the tree.

During the summer there is a lot of sunlight so there is a lot of green color (chlorophyll) in the leaves.

Find the Signs of Fall, Autumn

Click on the things you would see during the fall season.

The remaining pages
show samples of the
emergent reader pack.
