

# Beehive Jive

Identifying rhyming pictures

Identifying rhyming words

## Materials:

- center mat on page 11
- activity cards on page 13
- activity cards on page 15
- 2 resealable plastic bags

## Preparing the centers:

1. Laminate the center mat and cards if desired.
2. Cut the cards apart. Put each set into a separate bag.
3. Place the bags and center mat at a center.

## Using the centers:

1. A student removes the cards from the bag.
2. He lays each card faceup in the center area.
3. He chooses a card and names it.
4. He finds a card that rhymes.
5. He turns the cards over to check his answer. If the answers match, he places the pair of cards in the box on the center mat. If the answers do not match, he places the pair of cards (faceup) with the remaining unmatched cards.
6. He repeats Steps 3, 4, and 5 until every card is matched.

## Center Options

- ● If desired, invite pairs of students to work in the center together. Have each student take a turn matching a pair of rhyming cards and then naming a third rhyming word to accompany each pair. The partner checks and confirms the three rhymes before taking his turn.
- ● After each child has completed this leveled learning center, use the skill sheet on page 10 for additional reinforcement.
